## ABOUT ME

Hi! My name is Mohamed Ayouchi. I'm passionate about programming and technology. I have a high school diploma in Life and Earth Sciences and studied at university for two years, successfully completing the first semester (S1). Throughout my journey, I have gained diverse work experience in several fields, including construction, commerce, farming (poultry), fast food, and market sales. These experiences have made me adaptable, hardworking, and eager to learn. I speak Tamazight and Arabic fluently, have a good level of English, basic communication skills in French, and I am currently learning Spanish. I love learning new languages and exploring different cultures.

I also hold a type B driving license and am open to new opportunities that allow me to grow both personally and professionally
